## My Transformational Journey to Peak Health: Strength, Resilience, and Vitality (Eventually creation of an extraordinary Healing Program!)

In 2008, I faced a life-altering diagnosis—incurable vision issues, a severely damaged liver, and debilitating depression. Life seemed directionless until a cold December night when I stumbled upon the audios of (Late) Rajiv Dixit Ji. Listening through the night, something within me shifted.

Being a lifelong bookworm, I delved deep into ancient Ayurvedic scriptures—Sushruta, Charaka, Vagbhatta—eager to uncover time-tested wisdom. My studies soon expanded to 'Bhasmas & Nano-Colloids', revealing their profound impact on health.

This knowledge led me to create 'Colloidal Silver and Colloidal Gold (Energized and magnetized in copper vessel to optimize its benefits.

Understanding 'Breath-Body Humors Correlation' was essential. Breathwork directly influences the body's humors—Vata, Pitta, and Kapha—so I committed to mastering its intricacies.

My journey also embraced 'Subtle Healing Techniques' like 'Water Energy (inspired by Dr. Masaru Emoto)' and 'Grounding' (Ref. Dr. Laura Koniver's). To bridge ancient and modern science, I studied 'Anatomy and Physiology' (referencing Grey's Anatomy-Physiology and other medical resources) while incorporating research-backed lab studies.

Finally, I addressed 'Nutritional Gaps' with carefully selected (few) Nutritional Supplements. Since quitting sailing in 2008, this path has been my mission. My journey is a testament to the power of ancient wisdom, modern science, and unwavering resilience.
